THE DEPARTMENT OF ORTHOPEDICS WELCOMES

JOHN T. BRAUN, M.D.

John T. Braun, M.D. joined the Department of Orthopedics in the spine surgery section on October 1, 1999. He has extensive experience in the treatment of both pediatric and adult spinal deformities as well as in the treatment of traumatic, degenerative, infectious and neoplastic conditions of the cervical, thoracic, and lumbar spine.

Dr. Braun received his medical degree at Cornell University Medical College and his orthopedic training at The Hospital for Special Surgery in New York. Following residency, he completed a one-year fellowship in spine surgery at the Twin Cities Scoliosis Spine Center at the University of Minnesota. Since completion of his training in 1995, Dr. Braun, as part of an active duty Air Force service commitment, practiced in Texas as chief of spine surgery sections at Wilford Hall Medical Center and Brooke Army Medical Center. He is a Diplomate of the American Board of Orthopedic Surgery.

Dr. Braun's clinical interests include complex deformities of the spine in all age groups. His research interests include growth modulation in the treatment of scoliosis, as well as minimally invasive and fusionless approaches to scoliosis surgery.

ANGELA A. WANG, M.D.

Dr. Wang joined the Department of Orthopedics on September 3, 1999. She specializes in Hand and Upper Extremity Surgery, as well as Microvascular Surgery.

Dr. Wang received her undergraduate degree from Cornell University, College of Arts and Sciences and medical degree from Columbia University, College of Physicians and Surgeons. She completed her Orthopedic Surgery residency at New York Orthopedic Hospital/Columbia-Presbyterian Medical Center, followed by a fellowship in hand and microvascular surgery at the Hospital for Special Surgery/Cornell University Medical Center.

Dr. Wang will be staffing the University and Primary Children's Hospitals, as well as the Shriners Hospital for Children, and the UHN Redwood clinic. She will be treating traumatic and reconstructive hand and upper extremity conditions in children and adults.
